

The modules included in the Coaching Skills Academy curriculum are developed in partnership with Cincinnati Children's Hospital and Michigan State University Institute of Youth Sport Coaching. The content follows national standards in coach education to ensure you have access to best practices and resources.

Our core course includes modules on player safety, including concussion, first aid, CPR and using an AED. Additionally, there is content on skills knowledge, organizing practices, working with parents, providing quality feedback, to young athletes and much more. The course will take a coach about 60 minutes to complete.

#### Getting Started:

- a. Go to [www.coachingskillsacademy.com](http://www.coachingskillsacademy.com)
- b. Click the gray "Sign Up" button
- c. Enter the required information (name, email, select organization, password)
- d. Click "Register"
- e. In the "Have an Enrollment Code?" box, enter the code **SBK2026\*** and choose the Apply Code button
- f. Choose the Begin Course button to start the first module. Click each topic to learn the content, then click the accompanying quiz to complete the module.

#### **Questions or Need Codes for Your Organization?**
